- Notes:
- For complete documentation this drawing shall be accompanied with a 3D CAD model file.
  - General tolerance  $\pm 0.1$  (unless otherwise specified). General geometrical tolerance: ISO 2768-H. Surface roughness Ra1.6. All surface must be free of burrs and no sharp edge allowed  $R=0.2$  or chamfer  $0.2 \times 0.2$  is allowed for remove these).
  - Burrs, glue, grease or other fluids from manufacturing shall be removed from all surfaces.
  - Part package shall provide protection during transport, handling and storing.
  - Plated part shall be handled always with gloves.
  - All materials and manufacturing methods shall be according to NSN substance list and RoHS compliant.
  - All dimensions in the drawing shall be after plating.
